### ABOUT ME

I am a highly motivated designer and front-end developer with a unique combination of problem-solving, leadership skills, and talent.

I have experience with current technologies and frameworks including: Twitter Bootstrap, Foundation, Handlebars, Bourbon, LESS, SASS, and SCSS.

Throughout my career, I have been lucky enough to have an opportunity to work in a variety of fields (military contracting, aerospace, satellite communications, telecommunications, healthcare, retail, education, direct selling, cosmetics and more).

I have also been challenged to excel and/or lead in a variety of functions (graphic design, web development, branding, UI/UX, marketing strategy, teaching design/development to colleagues, and vendor coordination).
